To Whom It May Concern:

I would like to recommend Ashish Labh as a candidate for a position with your organization. In his role as a Quality Assurance (QA) Tester, Ashish has been working for Utradea since February 1st, 2021.

Ashish is an excellent QA Tester and a great asset to the organization. He has excellent written and verbal communication skills, is extremely organized, can work independently, and is able to follow through to ensure that testing is performed in a timely manner

Ashish was responsible for conducting QA testing for our Web Platform, Mobile Site, iOS app and Google Play Store app. Utradea is a complex product in nature and Ashish was able to quickly understand the platform, our business objectives, and devise an overall test strategy.

Since devising the test strategy, Ashish has been solely responsible for testing the platform throughout our development cycle. He was able to quickly identify issues, effectively log bugs, and support the development team through the update cycle. He has been extremely accommodating and able to prioritize key tasks effectively.

Ashish was initially hired to do a quick QA test but through the initial interaction it became clear that he would be a valuable team member. Our development team and management team have enjoyed working with him and will continue to use Ashish as our go-to QA Tester.

Ashish would add value to any company, and I recommend him for QA Testing or related endeavours. Please let me know if you have any other questions.

Yours truly,

Jack Zhang
Founder at-Utradea inc.
